- **EV Charger Federal Tax Credit**

The US government has extended a 30% tax credit for homeowners who install EV chargers. Both hardware and installation are covered by the credit. You can claim the 30% Tax Credit by submitting form 8911 with your tax filing.

Product Overview

Home Flex is ChargePoint's newest, fastest and most advanced Level 2 home charger, charging up to 50 amps and adding up to 37 miles of driving range per hour of charging. Flex can be installed to charge up to 50 amps, allowing drivers to pick up the speed that's right for them and their home's electrical supply. ChargePoint Home Flex is a Wi-Fi-enabled charging station and offers smart charging features using the ChargePoint app, including the ability to set a charging schedule, see all of your charging history in one place, connect with Alexa, and more. Flex is UL Listed for electrical safety, ENERGY STAR certified for efficiency and comes with a 3-years and 24/7 customer support. ChargePoint Home Flex can be installed by any electrician, indoor or outdoor, to charge at 16A to 50A, and comes with 23-foot charging cable.

Adjustable and safe

Dial in the ideal charging speed to safely accommodate your home's electrical system, from 16 amps up to 50 amps.

Fast home charging speeds
