Installed cabinets in kitchen.

Checked existing partially installed cabinets for level and correct installation.

Found entire cabinet structure to be out of level, it appears to have been installed from

The low end of the slab which created an out of rack condition, seven cabinet parts were removed

Completely, two large double boxes, two large end partitons next to the refrigerator

Were 1 inch out of level within 6 ft., Two filler strips were removed also.

Two other cabinets were adjusted on wall.

Another 8 boxes were assembled to form the island area.

The stove area was installed , 5 more boxes

Adjusted doors cleaned cabinets and installed shelving.

In the laundry existing used cabinets were installed on wall and base.

And 4 cabinets boxes were custom modified to create a bench area 2 feet high 8800.00

Install stain grade birch plywood top on bench area with a wood veneer

Edge cap. Sand and prep for paint or stain 300.00

Total 9100.00

Deposit 2000.00

Balance 7100.00
