

CONTENTS

How to Use this Book	<i>xi</i>
Foreword by <i>Dr. Luis A. Diaz</i>	<i>xv</i>
Introduction by <i>Dr. Steven Johnson, DO</i>	<i>xviii</i>

PART 1: THE LANDSCAPE OF MISTLETOE THERAPY

1: Ancient Plant, Modern Therapy: A Brief History of Mistletoe and Modern Oncology <i>Dr. Steven Johnson, DO and Dr. Nasha Winters, ND, FABNO</i>	2
2: The Immunology and Science of Mistletoe <i>Dr. Paul Faust, ND, FABNO</i>	28
3: The State of Current Mistletoe Research <i>Dr. Paul Faust, ND, FABNO and Dr. Marion Debus, MD</i>	45

PART 2: MISTLETOE IN CLINICAL PRACTICE

4: Understanding Host Trees: Best Practices in Choosing Mistletoe Therapies <i>Dr. Peter Hinderberger, MD</i>	68
5: Test, Assess, Address...Don't Guess! Adjusting Treatment Priorities in Response to the Patient's Unique Terrain <i>Dr. Nasha Winters, ND, FABNO</i>	91

PART 3: HUMAN-CENTERED MEDICINE

6: The Physiology of Warmth <i>Dr. Adam Blanning, MD</i>	117
7: What is "Constitutional Care" in the Anthroposophic World? Seeing the Whole person, the Whole Human Organism, before Providing Care <i>Dr. Peter Hinderberger, MD</i>	133
8: Pairing AM Adjuvants: Helleborus and Other Anthroposophic Remedies Provided alongside Mistletoe Therapy <i>Dr. Steven Johnson, DO</i>	159
9: Building the Bridge between Mistletoe and Other Integrative Therapies <i>Dr. Nasha Winters, ND, FABNO</i>	181

PART 4: WEAVING IT ALL TOGETHER: SPECIAL APPLICATIONS IN CLINICAL PRACTICE

10: Unique Scenarios: Novel Mistletoe Administration Routes and Understanding Tissue-origins of Specific Cancer Types <i>Dr. Mark Hancock, MD and Dr. Marion Debus, MD</i>	218
11: Using Mistletoe Therapy in Advanced Disease and End-of-Life Care <i>Dr. Steven Johnson, DO</i>	252
12: What the Horizon Holds for Mistletoe Therapy... and for an Expanding Integrative Approach to Cancer Care <i>Dr. Nasha Winters, ND, FABNO</i>	264
Afterword by <i>Holly Lucille, ND, RN</i>	277

APPENDICES

A: Basics of Mistletoe Administration	280
B: Dramatic Responses to VAE Therapy: Understanding Tumor Lysis, Pseudo Progression, and Allergy Potential	285
C: Anamnestic Form	287
D: M.D. Anderson Prognostic Scoring System	289
E: Host Trees and Cancer Types: Basic Matching Guidelines	291
F: Terrain-centric Core Lab Tests and True Healthy Ranges	293
Resources	297
Team Acknowledgments	304
About the Contributors	309
References and Author Notes	312

*In the midst of writing this book,
the anthroposophic community said
goodbye to two shining leaders.
They are dearly missed.*

Gene Gollogly (1950–2021)

Gene inspired many authors in his lifetime. This book was his last project and remains a symbol of his encouragement and dedication. That dedication to unveil the possibilities of the human spirit will live on in these pages.

Dr. Maurice Orange (1953–2021)

Dr. Orange treated patients and inspired doctors around the world. As a researcher and courageous physician, he is responsible for many of the groundbreaking applications of mistletoe therapy.

MISTLETOE

*and the Emerging Future
of Integrative Oncology*

STEVEN JOHNSON, DO
NASHA WINTERS, ND, FABNO

with ADAM BLANNING, MD
MARION DEBUS, MD
PAUL FAUST, ND, FABNO
MARK HANCOCK, MD
PETER HINDERBERGER, MD
