History & Inspection

History

Access details like number of previous owners, reported accidents and more in your free AutoCheck® vehicle history report.

Inspection

Every car we sell undergoes a 125-point inspection and reconditioning process. Anything that doesn't meet our standards is repaired or replaced by our highly trained technicians. Learn more about CarMax Certified standards.

AutoCheck

Check for Unrepaired Safety Recalls
Some cars may have unrepaired safety recalls. CarMax is not a manufacturer-authorized repair facility, but your local Volkswagen dealer will provide recall repair services for free.

CarMax

- ✓ No odometer problems
- ✓ No flood or frame damage

This car is CarMax Certified

What is CarMax Certified?

Every car we sell is CarMax Certified, which means no flood or frame damage, and no salvage history. In addition, it means a car has passed our 125+ point inspection and undergone a detailed reconditioning process.

A small sample of our 125+ point inspection includes checking all engine components and associated systems for our proper operation, leaks, abnormal noises, corrosion, bad connections, or excessive wear. Tires and wheels must pass an inspection and are replaced when wear exceeds state or local law.

CarMax

- ✓ No odometer problems
- ✓ No flood or frame damage
